Dubateers has one of the most successful, recognised and prolific catalogues of music releases of the last few decades by a new era producer. Working at Conscious Sounds for 5 years and also having his productions remixed by The Disciples and Dubstep legend Skream. Nearly two decades of sound system experience, including the recent solo design and build of Dubateers latest sound system. Dubateers has performed at the biggest events and alongside the very best artists in the business, not only as a support act but as a head-liner too.
